

# CL203: Database Systems lab

## Lab Task 06 [Subqueries]

1. Write a new query to display the first and last names of all employees who have worked in total greater than the average number of hours in total during May 2007.
2. Write a query that displays the park code, park name all parks whose ticket price is more than the average ticket price.
3. Write a query to display an employee's first name, last name and date worked which lists the difference between the number of hours an employee has worked on an attraction and the average hours worked on that attraction. Label this column 'DIFFERENCE' and the average hours column 'AVERAGE'.
4. Display the names of all Theme Parks where tickets have been recently sold.
5. Modify the above query you entered in task 4 to display all the theme parks where there have been no recorded tickets sales recently.
